Christ the Living Water

"Those who worship must worship in spirit and in truth."

In the Gospel of this weekend, Jesus is very clear that rituals are not what our faith is about, important and all as they are, but that it is about the heart and about life. The same is true of love and it is here that couples are such important prophets for the life of the Church. Your love for each other has its origin in the heart and must constantly be restored to the heart. Your love is lived in every day life and needs to give a quality of goodness to each day both for yourselves and for all those around you. But it is not just couples who are called to put their hearts into all they do. All of us, single people, religious, and priests are called to live out our vocations in ways that will encourage others in faith, build them up in hope and draw them into the love of God and so come to live life to the full.

Fr. Johnny Doherty, C.Ss.R.
