33RD SUNDAY IN ORDINARY TIME

The Triumph of God

Jesus said to his disciples: *"When you hear of wars and revolutions, do not be frightened"*. Every now and again someone comes up with the scare about the end of the world. And there are always people to believe them. But that is not our way as followers of Christ. Our task is to transform the world through the power of love. There are many situations in our world that we cannot directly affect except through prayer and through exercising our power of voting in favour of peace and the rights of people. But there are situations in the world that we do affect directly and it is there particularly that we live out our faith in Christ. The intimate relationships of marriage and family life need to be as good as we can make them and that is within our control. And the faith community to which we belong is a place in which we can make a difference by getting involved in the needs of the world around us.
